

## **Iron Indian Riders Association Mountain Wolf Pack Meeting Minutes 2006**

**Oct 14-15, 2006**

**Northern Tribe Attendees:** Phil & Karen Erby and William & Gail Edwards

The main topic was next year's weekender. We are looking for suggestions and input. How about some time in July around the 4th? Here is an idea the Colorado tour get your Indian High. One suggestion could be from Durango to Grand Junction @ 170 miles on day 1, Grand Junction to Black Hawk - Central City @ 230 miles on day 2, Black Hawk - Central City to Estes Park to Peak @ 62 miles on day 3 and maybe the Trail Ridge also.

**Southern Tribe Attendees:** Lori Dickerman & Doug Orser, Karen & Chuck Ulen, Gary Wright & Linda Bendorf, Patrick Suggs, Chuck Schmidt, Lyman Tryon, and Mike & Amy Keeney.

There was discussion about next year's Sharkstooth weekender/Labor Day North/South Weekender. We will not be having it at Sharkstooth next year as Phil and Karen have other plans. The Southern Band will be organizing and hosting it for 2007. One option was to have it up in the Greeley area on the same weekend at an Indian Lodge or something like that we passed by on our 2006 Sunday ride. Or it could be mid-summer July/August timeframe, being in Buena Vista, at Chuck's place or the Northern Bands suggestion. This is totally up for suggestions. We will have more concrete information by Jan/Feb so you will be able to make arrangements for vacation/travel or whatever.

Willie needs pictures of this year's Sharkstooth weekender if you have any please email them to him at [WillieBear@friira.org](mailto:WillieBear@friira.org)

### **Status on Richard from Karen and Phil Erby:**

He is doing better! Yesterday he had the following done: he has a sinus infection that was causing a fever so they cleaned out the sinuses and bronchioles; then the orthopedic surgeon screwed and plated his left leg, he broke both bones at the knee; then they put in a trac (trake) to replace the ventilator because he has been on that since the 6th; then they put a feeding tube in the stomach. Also did some cultures on blood mass where the spleen was taken out last week. Needless to say the last week and a half has been pretty scary. Today he is doing much better and looks a little more like Richard. After taking everything off of his face, we thought he was related to some movie stars with silicone in his lips. Just a little humor there!!! The little boy's mother has been in contact with us the entire time and we found out that Jordan is having a pretty hard time dealing with all of this and having nightmares. We're going to ask him to put together a poster of some kind for Richard, he is so concerned. Richard will just love him when he finally meets him. Hopefully he will be completely out of the induced coma by Saturday or Sunday and alert, but he is going to be one hurting puppy. Friday is Donna's birthday so we are hoping that he will be a "little" more alert to smile at least.

The Southern Tribe is wishing Richard a speedy recovery. If there is anything any of us can do to help please let us know.

Meeting was adjourned. Weather was a little iffy so there was no ride this meeting.
